Celebration of Life Tom Thomas *by Teri Layton*

Tom Thomas came to San Antonio Water Company in 1997 and never left us. I'm honored to have known Tom all these years. He always recognized people and I would be amiss if I didn't stop and recognize him. I have seen Tom handle the most heated shareholder's meeting and not back down. He grabbed hold of this little water company and treated us as his own. He steered us through political tension and difficult decisions. You could count on him to be on time and present to any meeting. His commitment was phenomenal and it showed in his involvement in the community. I once ran into Tom while giving blood and his response was "Oh I give blood all the time." We hold a clean up day every year in the San Antonio Canyon and Tom would always show up sometimes with his lovely wife Ann in tow. Tom was willing to share his life and his time to make this world a better place. He was a big man and will be missed.

Past 20-year employee anniversary celebrations

Tom Thomas was very proud of SAWCo staff with their accomplishments. He was always there to celebrate and participate with employee recognitions. Here are a few of our employee's celebrating their 20 year anniversary with Tom Thomas acknowledging their longevity with the Water Company.

GENERAL MANAGER'S CORNER

A Friend.

My heart hurts as I write this. SAWCO's Board President, Tom Thomas, was tragically involved in an accident. He succumbed to his injuries on February 26th. I am grieving. Tom was a major part of our life. As many of you know, apart from his leadership at SAWCO, Tom was also involved in a myriad of other civic organizations and community groups. But my friendship with Tom begins at SAWCO.

Tom Thomas became a San Antonio Water Company Director in 1997, 25 years ago. He quickly became the patriarch of our little family, becoming Board President in 1999. Since that time, as President he has been an integral member of the Company, guiding it through good times and bad. His calm demeanor and rational approach to issues allowed the Company to thrive and succeed.

I worked with Tom for almost four years. During that time, we spoke often. Occasionally we would even discuss Company related issues. But most of our discussions centered around two things: community and family. If you wanted to talk with Tom, just mention community events and happenings. But if you wanted his whole undivided attention, bring up family. Out comes the cell phone and we would scroll through wonderful photos of smiling grandchildren and warm backyard bar-b-ques.

A life worth living is a grand thing. And a life of service and community support is a life worth praise and admiration. In that regard I want to extend a huge "Thank You" to Tom's wife Ann and her family for sharing Tom with SAWCO for the past 25 years. He was truly a pillar of the community. Anyone who spent any time talking with Tom knew that he loved his community. And you also knew that love paled in comparison to his love of family. Tom knew what was important in life. And he embraced it fully. We will miss you, Tom.

Your Friend,

"My heart has joined the Thousand, for my friend stopped running today" – Richard Adams, Watership Down

What's Happening?

In the past, SAWCo has provided help to some of its shareholders when they have received large water bills after they have repaired water leaks on their property. SAWCo’s newly installed water meters offer shareholders the ability to monitor their water usage and receive alerts of water leaks on their property. We encourage all our domestic shareholders (the San Antonio Heights) to sign up for Waterscope in order to access this important information about their water consumption.

WaterScope can be accessed online through a web browser (Safari, Firefox, etc.) at <https://www.waterscope.us/>.

Registering your water meter with WaterScope requires your account number and the meter number (titled VN number in Waterscope). This information can be found on your water bill. Once registered, you can download the App to your cell phone and/or tablet, simply search the App store for ‘WaterScope’ and follow the prompts. A video showing how to register with WaterScope can be found here:

This year will be the last year we will mail out the SAWCo Waterworks newsletter. Starting Spring 2023, we will be sending out the newsletter electronically, via email. Currently, we have only a small portion of our shareholder's email addresses. Don't miss out on all the information contained in the SAWCo Waterworks newsletter! Contact our office at (909) 982-4107 ext. 105 or email Roberta at

rthomas@sawaterco.com and provide us with your current email address to continue receiving our quarterly newsletter.
