## Annual Shareholder's Meeting

Our Annual Shareholder's meeting will be held on April 10, 2018 at 6:00 p.m. at Upland City Council Chambers. During this time, we will review 2017 Water Company business, projects and finances. All shareholder's are welcome and should consider attending this meeting with their fellow shareholders.

## MANAGER'S MESSAGE

### THOUGHTS ON RETIREMENT

Many of you know that I am retiring in June of this year as such this will be my last article in the Manager's Corner of the newsletter.

I assumed that working in water would be a good career choice since we all have lived without something, but none of us have lived without water. I've also heard it said that if you work at something you enjoy, you will never work a day in your life. Well I have enjoyed 34 years in the business of water and especially the last 19 years with staff and Board.

So the time has come to retire from work, but not from life. My son recently asked me if I wanted to go into business with him. I told him that the key word to retired is "tired" and that it's generally a good idea to quit before your heart quits. The San Antonio Water Company has been around for 135 years and I feel privileged to be part of the history of such a historic water company.

### **Freshly Painted Fire Hydrants!**

You may or may not have noticed that the Water Company staff has recently completed painting all of its hydrants, air release covers and sample stations. Not only does this help to keep our facilities looking as good as possible but most importantly during the process we check to make sure the hydrants are working properly. We also remove any vegetation that may block safety personnel from locating them.

We also painted air release covers and sample stations. We checked them for graffiti, and trimmed back bushes and shrubs.

Should you notice that any of these facilities are leaking or need maintenance attention, give our office a call with the location and we will look into it as soon as possible.

## GOT LEAK?

We have recently partnered up with American Leak Detection (ALD) to provide leak detection to customers that appear to have a leak(s) on their property. ALD has the most current and up to date equipment to locate the leaks on your property indoors and outdoors. If you have been contacted by our office or suspect a leak on your property and have exhausted all efforts to locate the leak, please contact our office to sign up for leak detection thru American Leak Detection. The Water Company's leak de-

tection program offers payment for leak detection and sharing in a portion of the cost of the repairs with the customer. Please note that the program runs until the limited funds are exhausted.

## Hi Tech Flo Device to Monitor Indoor Water Supply

The Water Company can make available a "Flo" water security management system that is professionally installed on your main water supply line through American Leak Detection (ALD). This system uses an IOS or Android app which continually monitors your home's water flow, pressure, temperature and detects undesired water flow or abnormalities. The system proactively detects indoor leaks and can shut off your water supply automatically in response to a pipe burst or flooding and alerts you via email or app message by text or phone call. More info is available at [meetflo.com](http://meetflo.com). If you are interested in this device, call our office at (909) 982-4107 and we can connect you with ALD. The cost for the device with installation is approximately \$650 which will be the responsibility of the shareholder.

**SAWCo Waterworks**

is produced quarterly to keep San Antonio Water Company shareholders informed about water-related issues and upcoming events. If you have any questions or comments, please call the office at 909-982-4107.

**GENERAL  
MANAGER**

Charles Moorrees

**DESIGNER/EDITOR**

Roberta Thomas

Our fabulous co-worker Joni Ruggles resigned from the Water Company in February to dedicate her time to her family and also to enjoy some quiet time and relaxation; maybe even a little RV'ing and travel. Joni was part of the SAWCo team as the Accounting/Personnel Specialist for over 11 years. We will miss her and wish her the best.
